

Allscripts EHR Performance Workshop

Allscripts Enterprise® EHR is a very robust application that requires customized configurations to achieve maximum technical performance.

Specifically Designed For:

- **Integrated Delivery Networks**

Hospital and Ambulatory systems with widely dispersed Allscripts users and a multitude of interfaces.

- **Independent Medical Groups**

Groups that may be struggling with current performance issues, or those looking to substantially expand their Allscripts Enterprise® install base.

HIGH PERFORMANCE SOLUTIONS FOR ALLSCRIPTS ENTERPRISE® EHR CUSTOMERS

AmHiTech's onsite performance workshops are in-depth, hands-on training sessions that teach the tools and techniques used to identify and eliminate performance bottlenecks in Allscripts Enterprise® EHR implementations.

Your staff not only learns theory and process, but also how to resolve day to day problems using our performance toolkit installed and configured for your specific environment.

Each workshop includes two days of dedicated onsite time with your organization. Some of the country's largest Allscripts Enterprise® customers have already benefited from AmHiTech's workshops.

Call or email us today to schedule a free introductory webinar that will change the way you look at EHR performance.
